

Managed Services

Let us free you up from managing software!

Your Partner

Our company knows you have limited time and staff to keep business software at peak performance. That's why we offer Managed Services! For a low monthly fee, we will assume the responsibility of keeping your data clean, up to date, and ensuring your staff is productive.

We handle daily and weekly staffing to meet your needs.
Services include:

- ✓ Adding new accounts
- ✓ Maintaining employees and updating changes
- ✓ Managing work orders and reporting
- ✓ Creating recurring work orders
- ✓ Send billable work orders to your accounting team

Your dedicated account manager will work with you to clearly help you implement our managed services. We can often maintain a system for as little as \$95.00 per month!

We go to great lengths to protect and secure your data. Our data center is SAS70 certified and backed up nightly on a rotating basis. Our team is trained on all facets of data privacy and protection best practices!
